

ROAD GUIDE

Road Guide is a group of light arrows in different sizes fulfilling the norms for EN 12352:2001 and EN 50293:2001 class L8H. The control with two separated cable connected controllers give a high level of security. All Road Guide signs show, in basic version, left arrow, right arrow, cross or just xenon warning light.

Other configurations can also be delivered.

The signs are also delivered in kits containing Beacons and Controllers.
